

Department for Continuity

Monday, 26 September, 2022

Statement on future operations of the Department

In light of budget cuts which have led to a significant reduction in personnel and resources, we are moving our operations into the public sphere for the first time in the Department's 127-year history. We shall be working to engage local communities to support our work ensuring the safe return of chrono-displaced people wherever a portal from the past has opened in the UK.

We encourage members of the public to report any temporal anomalies to contact@depcon.uk or by calling 020 3633 0306.

See the past. Say it now. Protect the future.
